(ASSOCIATED PRESS TELEGRAM)  
Berlin, Aug. 26. By Wireless to Sayville.—The charge that the French have an organized force whose duty is to exterminate all the Germans found in captured trenches is made in a statement issued today by the Overseas News Agency as follows:

"The French some time ago introduced a new fighting system which is the most cowardly and flagrant stain of the laws of war developed up to this time. Coincident reports confirm the fact, not known until now, that within companies, special detachments have been formed with express orders to remain behind in captured trenches and exterminate all Germans yet alive. These troops are called 'nettoyeurs' (cleaners or sweepers). Their equipment is not the rifle, cartridge and bayonet of other soldiers, but the revolver, knife and hand grenade."

**ACTIVITY IN THE BALKANS**

Sofia Reports An Important Victory Over Serbians—Political Situation In New Section Arouses Interest and Apprehension of Diplomats—Vienna Says Russians Checked

While determinedly resisting the allied advance on the Somme front in Northern France, the Germans are launching strong attacks in other sectors of the western battle line, the latest offensive movement reported being in the Champagne region.

Near Tahure in the Champagne the scene of some of the hardest fighting in the French offensive of last September, German troops last night charged French positions and succeeded in penetrating them. Subsequently they were driven out, Paris declares.

This attack followed quickly upon an assault by the Germans on the point of the St. Mihiel front, southeast of Verdun, which the French repelled by a counter-attack and was carried out simultaneously with attacks in the region of Verdun itself and along the Somme front.

The point selected for the Verdun offensive was between Fleury and Thiaumont, where the French scored their recent advance. The Germans, although they subjected the French line to a heavy bombardment, were unable to make any gains, according to Paris.

On the Somme the German counter thrust was directed at Hill 121 near Maurepas. This attack was repulsed, the Paris bulletin declares.

Military activity is developing in the Balkans.

Sofia reports an important victory over the Serbians on the Bulgarian right wing and announces that on the other flank the Bulgarians have reached the Greek Aegean coast. Balkan political developments are being followed with intense interest, particularly the attitude of Rumania. Dispatches today indicate further military preparation by this kingdom, including an increase of the extraordinary credit for the army by 600,000,000 francs.

Vienna claims the checking of Russian attempts to advance in the Carpathians toward the Hungarian border, but Petrograd asserts that further gains in this region has been made by the Russians.

## ARMY EXPERTS WORK ON LARGE FIELD HOWITZER

(ASSOCIATED PRESS TELEGRAM)  
Washington, Aug. 26.—Army ordnance experts are at work on designs for huge field howitzers, as large or larger than the German 42-centimetre guns which wrecked Belgian and French forts early in the war. They will be at least 16-inch calibre, with a range of 12 to 15 miles, hurling a projectile weighing more than a ton and carrying a huge amount of high explosive.

In addition to placing several of these mammoth weapons along the coast line for mobile defense against naval attack, army officials now are considering the creation of a special regiment, equipped with six of the howitzers, to work as a unit of the mobile army.

It is planned to build the new howitzers primarily for transportation by rail on special cars. It is believed possible, however, that the weight can be so distributed on several carriers drawn by motor tractors that it could be dragged over any fairly well ballasted highway.

## Woman Charges Militia Captain With Her Downfall

(ASSOCIATED PRESS TELEGRAM)  
Macon, Ga., Aug. 26.—Accompanied by a military escort the body of Captain Edgar J. Sprattling, F. company, Fifth regiment, National Guard of Georgia, who was shot and killed at the state mobilization camp here yesterday by Mrs. H. C. Adams of Atlanta, early today was taken to his home in Atlanta. Burial will be made at Opelika, Ala.

Mrs. Adams, formerly a patient of Captain Sprattling, who in civil life was a physician, last night was held by a coroner's jury for the killing. At the Bibb county jail here she asserted she shot Captain Sprattling because of attentions paid her while she was in his office in Atlanta.

After several hours in jail, Mrs. Adams became hysterical but frequently declared that when she goes to trial her course will be shown to have been justified. Her husband, a laundry wagon driver, is expected here today.

Mrs. Maude Monk, a trained nurse, questioned by officers of the National Guard at Camp Harris last night is said to have declared she saw a letter to Captain Sprattling from Mrs. Adams threatening to kill if he did not see her.

Officers at the camp indicated a belief that illness due to nervous disorders caused Mrs. Adams to think Captain Sprattling had acted improperly to her.

## ATTACK

**On Vessel Defending New York Resulted in the Loss of Nine**

**NAVY PLAYS WAR GAME**

Two Battleships and Five Destroyers Among the Number Theoretically Put Out of Commission—Battle Started at Daylight and Continues Until Dark This Evening

(ASSOCIATED PRESS TELEGRAM)  
Washington, Aug. 26.—The defending squadrons under Rear Admiral Helm have been "destroyed" by the hostile fleet under Admiral Mayo in the navy war game and this afternoon an invading army was being landed in theory on the shores of Long Island.

Admiral Helm's submarine flotilla which has already sustained severe losses, was the only portion of the defending fleet remaining to contest the landing. The submarines were concentrated at Fire Island, 25 miles from the scene of the theoretical landing operations at 9 o'clock this morning. Four of the 17 under water craft in the defending squadron are known to have been destroyed previously. The remaining 13 are thought to have set out shortly after 11 o'clock to attack the enemy transports and no word of that action reached the department during the afternoon.

The two fleets have been engaged in battle, the culmination of the navy war game, since 5:00 o'clock this morning off Scotland Lights, Sandy Hook.

Up to noon by the umpires' decision, the battleships Nevada and Texas and the destroyers Wadsworth and Tucker of the enemy fleet, the scout cruiser Birmingham and the destroyers Benham, Fanning, Balch, Drayton and several others of the blue defending fleet, had been lost in action.

The battle will continue until 5:00 o'clock this afternoon unless the umpire, Rear Admiral Knight, decides one fleet or the other has been decisively beaten before that time.

On all sides the president's visit to the capital was taken as indicating that the situation had reached a crisis.

He returned at once to the White House.

Late this afternoon the railroad executives adjourned without having finished their statement to President Wilson and their attitude was abandoned as unchanged.

The threatened railway strike situation took on an added tenseness today as the railway executives continued their deliberations over the form of the counter proposal to President Wilson's plan and the brotherhood leaders silently awaited the next move.

The executives have been told that the men's leaders expect difficulty in restraining them after tonight. The presidents worked steadily all morning and the fore part of the afternoon carefully preparing their statement to President Wilson, but shortly after noon had taken no final vote on it.

As has been outlined unofficially it declines to concede the eight-hour day without arbitration and investigation of its application to railroad work but makes some concessions as to collateral issues.

The effect of the executives' counter proposal will be to pass the issue back to the brotherhoods and the outlook is variously described by those in touch with the negotiations.

Some of the railway executives say their proposition is positively their last; some of the men's leaders stand firmly against arbitration. Others on both sides have hopes that out of it will come further negotiations delaying a strike and possibly averting it.

No word in regard to the situation having arrived, the employees' meeting adjourned shortly after noon until 2 o'clock. Meanwhile, the presidents of the four brotherhoods remained at their hotel waiting a summons from the White House. They were without official knowledge of the railroad heads position.

**PREPARE NEW PROPOSAL**

Understood to Decline Eight Hour Day Without Arbitration But Makes Other Concessions—Brotherhood Leaders With Difficulty Restrain Men From Ordering Big Strike

(ASSOCIATED PRESS TELEGRAM)  
Washington, Aug. 26.—President Wilson suddenly left the White House today with the intention, it was understood, of going to the capitol in connection with the threatened railway strike. Officials refused to tell the President's purpose.

Among brotherhood officials this afternoon it was declared that an unqualified concession by the railroads of the eight-hour day or action of congress taking over the railroads for government operation could prevent the threatened strike.

With negotiations for averting the threatened railway strike practically at a deadlock, President Wilson today suddenly went to the capitol and conferred with administration leaders over the possibility of legislation.

The President conferred first with Democratic Leader Kern and Chairman Newlands of the interstate commerce committee, who, it was understood after a canvass of the congressional situation had concluded it was feasible to get through congress before adjournment some sort of an expression that the railroads should be authorized to make rate increases.

Just before the President went to the capitol the brotherhood leaders, impatient at the delay of the railroad executives in replying to the President's last proposal, declared that only the unqualified concession of the eight-hour day or some action by congress to cause the government to operate the railroads could prevent the threatened strike.

On all sides the president's visit to the capitol was taken as indicating that the situation had reached a crisis.

He returned at once to the White House.

Late this afternoon the railroad executives adjourned without having finished their statement to President Wilson and their attitude was abandoned as unchanged.

## MEDICAL SOCIETY EXPRESSES REGRET OF MEMBER'S DEATH

Members of the Licking County Medical Society, authorized a committee to send a letter to the family of Dr. Mitchell expressing the sympathy of the society. The letter, beautiful in sentiment, is reproduced herewith.

"To the Family of Doctor J. A. Mitchell:

"At a meeting of the Licking County Medical Society, which assembled at the office of Dr. Harry Hunt, secretary, on the day of Dr. J. P. H. Stedem, president, on the evening of August 23, 1934, there were so many expressions of sorrow concerning the death of Doctor Mitchell and so many utterances of appreciation of his worth to the society and community at large that it was thought best to dispense with the ordinary stereotyped expressions of condolence and give his family the sentiments of the meeting as expressed by the several speakers.

"Doctor Mitchell has passed, and he is making his visits with those souls whom he ushered into this life, ministered relief to while here, and as a last act, gave his buoyant thoughts and inspiring presence to their passing. From his Maker he receives his reward for his earthly service.

"To you, his family, Doctor Mitchell was an ideal husband and father; to us, his associates in medicine, he was an esteemed counselor, an inspiration to all; to the community at large, he was a friend and benefactor whose memory shall live.

"The living can honor themselves in no way more than in paying a sincere tribute of respect to the memory of this good man. The public activities and benefactions of Doctor J. A. Mitchell and his worth as a private citizen are things that will be immortal. His influence shall be a potent force for good long after the poignant sorrow for his passing has resolved itself into the serene grief that shall remain. Many hearts are heavy with regret at the death by which his burdens were so suddenly laid down.

"Active in the profession he loved, zealous in assuaging the sufferings of humanity, interested in promoting all enterprises for the betterment of his town and his fellow citizens, his example should be an incentive and encouragement to pledge renewed energies to the beneficent cause dear to his heart and from which he has been so tragically removed.

"Doctor Mitchell was a keen lover of all beautiful sports. His cheerfulness and geniality endeared him to his friends. He was a man of magnetic personality—an optimist—who a ways brought interest and enthusiasm to the meetings held by his brothers in the profession, and his death is deeply deplored by them.

"His professional standing and appreciation of his skillful services are emphasized by the fact that so many families turned him in a professional regard from the time of his first call to them, even to the second generation, and by their lamentations over his sudden and unexpected demise.

"Though his passing is untimely and his loss irreparable to his friends, he was in the zenith of his strength, and has escaped the unutterable pathos of the decline of mental and physical vigor, which the years so inevitably bring.

"Very truly and prophetically did Doctor Mitchell remark on leaving home for this vacation that he was well prepared for a long and needed rest. Little did he realize that this rest was to be eternal.

"Very sincerely yours,  
THE LICKING COUNTY MEDICAL SOCIETY,  
J. P. H. Stedem, President  
Harry Hunt, Secretary  
W. C. Rank, "Committee."

## A Matter of Individuality

The way in which you handle your money is really the truest expression of your individuality.

This is just as true of a financial institution. Each one has a different way of managing its affairs, and if you have money to invest, it will pay you to study the characteristics of the various institutions.

There are certain features that set the "Old Home" apart from all others. Our long record of successful business is one. For thirty-six years we have paid every withdrawal on request. We have never paid less than 4 per cent interest to depositors.

The most rigid test of the safety of your money in any institution is the way in which your money is loaned. Here in the "Old Home", we loan only on first mortgage security. Everyone agrees that this is the best security known. Why not invest here?

## CHILD'S ARM IS CRUSHED WHEN ICE CAKE FALLS

Charles Grimm, six years old, of 29 North Morris street was badly hurt Saturday morning when he was caught under a 200 pound cake of ice which fell from a wagon near his home.

The child makes his home with his grandparents, Mr. and Mrs. William Floyd in North Morris street. With several other children he had been riding down the street on the back step of the ice wagon. The wagon stopped to make a delivery and the jolt of the wagon loosened a 200-pound cake of ice which fell from the top of the wagon.

As the ice fell it knocked several of the children off the step, and over the body of the Grimm boy, catching his right hand and arm beneath the huge cake.

The child was taken to his home and Dr. C. H. Stinson was called. The right arm was broken near the wrist, he suffered several bruises and cuts about the head and on the body. He is resting more comfortably this afternoon.

The next meeting is to be the election of officers.

The spirit of the Methodist church will be occupied tomorrow morning by Dr. C. L. Williams, who will preach on "The Unwritten Side of Life." In the evening the closing union meeting of the summer will be held in this house with a sermon by Rev. Dwight Wylie, D. D. of Philadelphia.

Angevine of Pataskala with his family, returned home yesterday after the funeral.

Prof. and Mrs. W. H. Johnson entertained a few class friends at dinner last evening in compliment to their house guests, Prof. and Mrs. David Dale Johnson of the University of West Virginia at Morgantown, who will visit Granville relatives for a few days.

Prof. and Mrs. Raymond Pence, whose departure from Granville has been announced for the near future, were honored with a handsomely appointed dinner last evening at the Buxton House given by the U. D. club. This club of six couples is a social organization of several years' standing from whose number the Pencees will be sadly missed, as was eloquently indicated at this farewell dinner. Covers were laid for the honor guests, Prof. and Mrs. Pence, Mr. and Mrs. Roe Morrow, Mr. and Mrs. George Stuart, Prof. and Mrs. Walter Livingston, Mr. and Mrs. Ben Woodbury, Mr. Hubert Wright and Miss Addie Slack, Mr. and Mrs. O. H. Burris of Washington, D. C., were guests also of the club.

Mr. F. L. Ferguson is of the opinion that for absolute honesty Granville village can beat any other town in several states. It seems that he agreed to deliver in Newark for a friend, yesterday, a neatly wrapped parcel on which in case of accident he wrote his own name and address. Arriving at Newark he discovered that he had taken the article and phone messages to Granville failed to locate it. Somewhat disturbed in mind over the loss, he left the 4:30 car on his return in the afternoon and on reaching the pavement saw the familiar package lying on the pile of bricks lining

## "PARALYSIS" WAS QUICKLY CURED: HAD HYSTERICS

Parents of children residing in Weiland avenue were given a scare Friday afternoon, when a child seemingly developed infantile paralysis. The child, a girl about 8 years old, who had been a ward at the Children's Home, had been placed in a home in Weiland avenue.

Friday morning she could not be roused, wouldn't talk and when placed on her feet could not walk. Dr. C. F. Legge, accompanied by Dr. Eugene Wells, were called to the house, and the neighbors had used every effort to aid the child and when they failed all feared infantile paralysis.

The examination disclosed the fact the child was suffering from hysteria and a pain in her head. A threat to return her to the Children's Home, and that perhaps "she might be cut open at the hospital" cured her of the "paralysis" and she was given medical attention for the pain in her head.

## SERG. NOETHLICH TAKES WAR BRIDE FROM THIS CITY

Announcement has just been made of the marriage of Miss Donna Bebout, daughter of Mr. and Mrs. Warren Bebout, corner Grilly and Postal avenue, and Sergeant Ernest L. Noethlich, Ohio Field Artillery, O. N. G.

The marriage took place in Newark, July 15, Rev. W. D. Ward, pastor of the Central Church of Christ officiating, but was kept secret until a few days ago. The wedding had been planned for later, but the call for troops took Mr. Noethlich away from Newark, so the wedding date was hastened.

Mr. Noethlich's home is in Columbus, but he was located in Newark for several months as manager of the Rosenbach shoe store in North Fourth street. He is supply sergeant, O. F. A. at Camp Willis.

## Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of thousands of sickly, anaemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.

Mr. George Kinsey, accompanied by his two sisters, Mrs. Clarence Smith and Miss Olive Kinsey, motored to Cleveland to visit relatives and friends. Miss Kathryn Frye accompanied the party.

## SPEEDER

### CHARGES THAT POLICE DISCRIMINATE IN MAKING ARRESTS FOR VIOLATIONS.

Says Other Drivers on Same Street, Traveling Just as Fast Were Not Molested.

Charges that the city administration was discriminating in its prosecutions of violators of the speed ordinance, were made this morning by a young man from Pleasant Valley, following a fine of \$20 and costs, imposed upon him in police court by Mayor Bigbee.

The young man was arrested several days ago for speeding in Hudson avenue. The motorcycle cop who made the arrest testified he was driving 40 miles an hour.

The offender admitted to the mayor he was traveling more than 15 miles an hour, but was directly behind several other machines who were setting the pace.

"Why I should be picked out from among several other machines going as fast as mine, I can't understand," the young man said, "unless it was because the officer realized I was from out of the city."

"If I was violating the speed ordinance then the autos ahead of me also were exceeding the limit," he said. "But they were not stopped by the officer."

Mayor Bigbee stated that while the young man might not have been going 40 miles an hour, he admitted he was traveling more than 20 miles an hour, which is a violation. "I have fined several other speeders the same amount and will continue to assess heavy fines until this practice is broken up," Mayor Bigbee said.

Three other autoists arrested last night for being drunk were each fined \$5 and costs. The trio, according to police, left their two machines standing outside of a saloon, while they proceeded to become inebriated. They were restrained from entering their cars on account of their condition and the police summoned. The machines were placed in local garage and the men locked up.

Russell Sawyer, arrested several days ago and held on a charge of being implicated in the robbery last Tuesday night of Harry Lassel, who was touched for \$400, was held to the grand jury by Mayor Bigbee this morning. He was charged with pocket picking. The bond was placed at \$200.

Two offenders charged with fighting, each were fined \$10 and costs.

### Alexandria Man Buys Blind Trotter "Jack Woodcliffe"

"Jack Woodcliffe," the fast little blind station that has been the pet of Mt. Vernon people for four years, is now owned by E. J. Clark of Alexandria, O. Judge B. M. Critchfield having sold him Wednesday. The joke was not announced. Judge Critchfield owned the horse exactly four years and started him in forty races, winning \$1,000 in purses.  
The judge drove "Jack" in the 2 1/2 to 3 at the London, O. races on Wednesday, and finished in the first heat a debut that he ever experienced during the four years he has driven him. After finishing second in the first heat, "Jack" came back strong for the second heat but, with two other trotters, went into a collision and was thrown. "Jack" got up quickly, and despite the fact that he was somewhat hurt, finished the heat in fifth place. One of his feet had become entangled in the wheel of another sulky. It was necessary to draw him from the race, and Judge Critchfield was much annoyed that the horse was hurt in what was his "good-bye" drive for "Jack."

## ASSISTANCE

### TO TOWNS IN NEED WILL BE PROMPTLY GIVEN BY B. & O. RAILROAD.

Fires, Floods and Other Disasters Will Call for Immediate Action Says Superintendent Stevens.

To have the spirit of co-operation along its lines uniformly understood by all concerned, was a new policy of the management of the Baltimore & Ohio railroad company, outlined in a letter from Superintendent D. F. Stevens, of the local division, to members of his staff, today.

"In the event of fires, floods and other disasters," the letter said, "the facilities of the company will be utilized to render every assistance with means at hand to relieve conditions. The company will transport fire department forces and apparatus and such immediate supplies as may be needed."

"The Baltimore & Ohio will also do whatever else it can to meet such emergencies."

"When facilities of the railroad company are in danger of impairment or destruction, communities without doubt will render similar assistance, but in any event the railroad officials will co-operate with those towns and communities to overcome local disturbances and to pre-empt any emergency."

## HEADACHE EVERY MORNING, CAN'T EAT, LIVER NOT ACTING?

A Wineglassful of Tollo Water Will Start Your Liver and Stop Your Headache in Half An Hour

Morning headaches come from clogged livers. The bile tubes are choked and force the bile into the blood until the whole system becomes poisoned, which makes the appetite poor, especially at breakfast. Get a 15-cent bottle of Tollo Water from the drug store and take about a third of a tumblerful in a glass of plain water before breakfast. In thirty minutes it will start the liver acting freely, your headache will be relieved at once, because it flushes out the bile, really bathes the liver, leaving it clean and fresh. Then you can eat breakfast and really enjoy it, and there won't be any gas or discomfort afterwards.

Concentrated Tollo Water comes from Dawson Springs, the famous Kentucky health resort. It does not act by irritation, like colomel and other strong drugs that weaken the system, but by dissolving the obstructions and bathing the liver as nature requires. To remove the bile that has been absorbed into the blood you should take a wineglassful every morning for several days. It will clear up the skin, your tongue will lose its furry coat and your natural healthy color will return. Then an occasional glass before breakfast will keep your liver clean, your bowels regular and your appetite good. Advertisement.

### Legge Reunion.

Moundbuilders park was chosen as the place for the fourth annual reunion of the Legge family. Thursday, August 24, was an ideal day and had much to do with the jubilation of the party, everyone being bent on having a good time.

It is a pleasure war, each succeeding year enhances the annual meeting of relatives and old friends cement the ties of friendship, which otherwise would become only one of memory.

The organization hopes next year each one will avail themselves of the privilege of meeting and greeting old friends of the family.

At noon a chicken dinner, with a goodly number of accompaniments, was spread on a large table under the trees. This was greatly enjoyed by all present. Elliott, corresponding secretary; Mrs. Turner Rian, recording secretary; W. M. Morgan, treasurer.

### Milady's Boudoir

Selecting the Hair Brush. Brushes each day remove much dirt and grime from the scalp and hair, therefore, they in turn should be rid of this accumulation. Powder for cleansing brushes are on the market, but daily vigorous and quick dipping up and down in a little ammoniated water, then placing to dry, bristles down, in the sun and air, will keep a brush white, stiff and clean.

It is economy to buy a first class brush when this purchase is to be made. Cheap brushes are poor investments. A good bristle brush, costing several dollars, of long firm bristles, will, if properly cared for, last almost a lifetime and give its owner satisfaction all the time.

The best comb is never sharp on the edges of the teeth, nor is it finely set. It is of hard rubber with teeth well shaped and rounded at their sides. A white comb is the one that necessarily has to be kept more clean than any other, and in this way it is the best color to choose.

The hair should be separated into sections, the comb used gently, but thoroughly, so that all tangles are removed by being straightened out, not simply broken off. The scalp should be combed as well as the hair, as this furnishes a sort of gentle, stimulating massage. Then after the hair has been well combed the brush should be used.

Do not use the brush rapidly or press upon it too hard; remember that the object of using a brush is to remove dust, all dead uticle thrown off by the scalp and to stimulate the circulation as well as to distribute the delicate oil secreted by the glands found in the scalp.

### Our Boys and Girls

Quite often the upholstery of a baby's carriage becomes faded, worn or soiled, but a new one can be made very easily. Cut a paper pattern the size and shape of back and sides of carriage and make a cover to fit out of white pique or a natural colored linen. Bind with a wash braid and make buttonholes along the edge. On the upholstery of the carriage sew pearl buttons and button the cover on.

Little children, especially those nervous or highly strung, are disposed to keep on crying when they get started. When you wish a child to stop sobbing get him to take a good drink of cold water. It almost always will stop the sobbing immediately.

Don't forget that children are more seriously affected by impure air than grown people. Don't forget that lowered vitality makes children more liable to catch any infectious disease.

Don't say "don't" to your little ones. Remember to tell them what they are to do, not what he is not to do.

### Every Day Etiquette

"When my girl chum brought her brother over to meet me for the first time, should I have risen?" asked Ruth.

"A hostess should always rise, when introduced to a man or woman. It is not necessary for a lady to rise to greet a man when she is introduced in your own home. It is a mark of hospitality and breeding to greet your guests with a welcome handshake and a cordial remark," replied her oldest sister.

**IF KIDNEYS ACT BAD TAKE SALTS**  
Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.
